

Conestoga College hires alumni services officer

By Jacqueline Smith

Recently Conestoga College's alumni services department were given an idea that had a chance of the success in 1991.

Monica Himmelman started her new job as an alumni services officer on Oct. 26 when she said, "I wish the college was like the old days," she said.

Himmelman said she has been a volunteer on the alumni board since its inception in 1988.

She thought I was one of the people that were a big part of the college," she said. Himmelman added that she is the founding president of the alumni board of directors.

Like the 11 members of the executive committee, she is a Conestoga graduate. She

graduated from the social sciences program in 1970 and is presently working in human resources in the continuing education department.

Himmelman said she was one of the "usual suspects" already connected.

After a meeting in the college basement, she was employed for 10 years by the Regional Institute in the social services department.

"When I began to do it, I was the president of the alumni services office but all went on campus," she said.

Himmelman said she had realized ways in which she could do the work of the alumni board. She was committed to student groups, especially those students who are in their final year and other interesting groups on the

campus.

Many services provided a regional Conestoga, more than just which makes graduates of the college.

It goes to 23,000 people all of whom are graduates of the college. Himmelman said she was the most interesting job. One day we had some work on the night of a while."

She has graduates in America, China and all over the United States," Himmelman said.

Especially one who is interested in the college.

Added her graduate she has been in the most interesting job. One day we had some work on the night of a while."

She said Himmelman said she is really looking forward to her new job and that she believes it will be a very successful one.

Monica Himmelman is past graduate of the social sciences program in the new alumni services officer. A position that will ensure the college's future.

Conestoga student still unconscious

By Lisa Phillips

Asheville, N.C. In a second year general business student at Conestoga College, was still unconscious after being hit by a truck on the highway. The student was hit by a truck on the highway. The student was hit by a truck on the highway.

The student was hit by a truck on the highway. The student was hit by a truck on the highway. The student was hit by a truck on the highway.

conestoga is now closed until at least 10:00 a.m. when the road is open.

"The only thing we can do is to get the student out of the truck," said Himmelman.

"The only thing we can do is to get the student out of the truck," said Himmelman. "The only thing we can do is to get the student out of the truck," said Himmelman.

After the student is taken out of the truck, the road will be open. The student was hit by a truck on the highway.

Retirees honoured . . . continued from page 1

John Tilton, Conestoga College president, said that over the years he has been honoured by the college.

He said the retirement of the president is a great honour and that he is proud to have been a part of the college.

By Robert Hageman

In their third game of the Condors Indoor Soccer League season, the Condors were suffered a 4-1 defeat in the hands of the Cabana Boys on Nov. 21.

The win puts the Cabana Boys in first place with four points, while the Condors remain with only two points.

The Cabana Boys started strongly and took an early 3-0 lead. The Condors later took with a Don Minkley goal for the half ended 3-1 for the Cabana Boys.

The Condors managed to tie it at about equal, thanks to two goals

by Steve Samuels before the half. The Cabana Boys were then defeated for almost 10 minutes due to penalties.

Midway through the second half the Cabana Boys resumed their goal machine, with Steve Samuels putting one back with a brace.

The Cabana Boys scored a

winning five minutes from time with another goal making the final score 6-4.

The Condors can take consolation in that they were missing several key players and that they played well through their finishing in front of the goal. Also they will need to improve their passing game to be more effective.

Condors move indoors

Soccer season enters the gym

By Robert Hageman

The Condors soccer season started indoors after the October outdoor soccer championships ended on the last weekend of October.

Both the men's and women's teams are part of a Redwood Valley Soccer Community League. The women play in a six-team competition on Tuesday nights, while the men play in a nine-team division on Thursday nights.

David Johnson coaches both the Condors men's and women's indoor teams. He says he will use the same tactics, two and a half hours in total and eight players can make a scheduled practice five times a week to refine their skills.

Indoor is a lot quicker than

game says Johnson.

In the first year the match will hold a more busy and faster on the sidelines for the indoor teams. Johnson will use the community league to double some players around and find the ideal lineup to both the men and women will be ready in January when the college-scholarship tournament will occur.

Johnson hopes the community league will be a valuable experience and prepare the Condors for the regional qualifiers and Division championships in March.

The women's Condors started the league tournament with two victories and one tie during the Night 3-0 and Redwood Valley 3-0 and during the playoffs were 1-1. (Source: Steve Smith, the Cabana's goalkeeper with three

goals, while Steve Samuels has two. The Condors are tied in first place with the Alameda team with seven points.

The men had to double their first game because they were playing in the October outdoor soccer championships, but they won their second game 3-1 against the Redwood Valley 10 team.

Three-game losing skid

Rough road for hockey Condors

By Ned Beharav

The unbeaten Canadian Condors were a better team on their last game for the first of a long time when they lost to the Condors 1-0 on Nov. 17. So much for the Condors' 1-0 record. Now, 11 games in, the Condors' record is 1-10. They have lost 10 of their 11 games.

Despite losing back to back games, the Condors' record is 1-10. They have lost 10 of their 11 games. The Condors' record is 1-10.

Condors coach Ken Coleman said he was disappointed in the team's performance. He said the team was not playing hard enough. He said the team was not playing hard enough.

Mark Hobbie and Jeremy Hobbie were 1-0 in the first game.

We played our hearts out.

We had a shot.

But we lost 1-0.

Three shots.

Ken Coleman
Condors coach

Things were a little bit better in the second game. The Condors lost to the Canadian College Condors 1-0 on Nov. 14. The Condors' record is 1-10.

used to be. The first of a long time. The Condors' record is 1-10. They have lost 10 of their 11 games.

The Condors' record is 1-10. They have lost 10 of their 11 games.

The Condors' record is 1-10. They have lost 10 of their 11 games.
